Rural Trauma Team Development Course (RTTDC)©  
Osborne County Memorial Hospital-Osborne, KS  
March 30, 2016

Course Description: The RTTDC© emphasizes a team approach to the initial evaluation and resuscitation of the trauma patient at a rural facility. With more than 60% of the country’s trauma deaths occurring in rural areas, the course assists health care professionals in determining the need to transfer the patient to a higher level of care. The one-day course is based on the concept that in most situations, rural facilities can form a trauma team consisting of at least three core members.

Target Audience: Individuals involved in the care of the injured patient including physicians, nurse practitioners, nurses, physician assistants, prehospital personnel, technicians, and administration.

Objectives:
• Organize a rural trauma team with defined roles & responsibilities for the members
• Portray a rural facility for the appropriate care of the injured patient
• Identify local resources and limitations
• Assess and resuscitate a trauma patient
• Initiate the transfer process early
• Establish a performance improvement process
• Encourage effective communication
• Define the relationship between the rural trauma facility and the regional trauma system

Fee: $60. Please contact Kiley Floyd for payment options.

Credit: The American College of Surgeons is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The American College of Surgeons designates this activity for a maximum of 8.25 AMA PRA Category 1 credits™. Physicians should claim credit commensurate with the extent of their participation in the activities. The American Nurses Credentialing Center (ANCC) accepts AMA PRA Category 1 Credits™ issued by organizations accredited by the ACCME. Other non-physician participants will receive a certificate of course completion that they can use to claim credits from their respective credentialing entities.

Wesley Medical Center needs to secure 12 students prior to the continuation of planning for this course due to the course format and price. Please pre-register if you are interested and course details will follow.
