Objectives:

• Evaluate rehabilitation tools available to maximize the independence of patients with SCI.
• Propose best practices in the prevention of secondary complications for patients with SCI.
• Formulate the accurate diagnosis of concussion based on the symptoms.
• Assess when an athlete is able to safely return to play based on the Return to Play Protocol.
• Relate basic spine and spinal cord anatomy to discussion of spinal cord injury subtypes.
• Correlate spinal cord injury pathophysiology with medical and/or surgical management.
• Differentiate how interdisciplinary care in acute rehabilitation differs from other models of care in terms of addressing patient needs and improving outcomes.
• Apply three or more new brain injury rehabilitation advances/techniques that are based on the concept of promoting neuroplasticity in the recovery process.
• Apply the Pathophysiology of TBI to the Clinical Evaluation of Patients with Traumatic Brain Injury.
• Select current evidence-based treatments for management of Patients with Traumatic Brain Injury.

Nursing: Salina Regional Health Center, as an approved provider of continuing nursing education by the Kansas State Board of Nursing, offers this program for 6.6 contact hours applicable for RN, LPN and LMHT relicensure, KS PROVIDER NO. LT 0136-0727. Partial credit will not be given for this program.

Physicians: All participants are required to sign a “verification of attendance” form at the beginning of each day. A certificate of completion will be provided to all activity participants based on documentation of actual attendance time.

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint providership of KU Medical Center Office of Continuing Medical Education and Salina Regional Health Center. The KU Medical Center Office of Continuing Medical Education is accredited by the ACCME to provide continuing medical education for physicians.
